

Community Wildfire Resilience Program

Wildfire risk is increasing in Western Washington, but your home can survive a wildfire. The Whatcom Conservation District (WCD) Community Wildfire Resilience Program offers Whatcom County residents comprehensive wildfire preparedness and education. Our team has the knowledge and resources to help homeowners and communities understand their wildfire risk and feel empowered to take action.

Free, Non-Regulatory, and Confidential

Home Risk Assessments - Community Assistance - Wildfire Education

Benefits For Homeowners in the Wildland Urban Interface (WUI)

- Learn how to protect your home & property from wildfires
- Address shared wildfire risks with your community
- Access resources and knowledge from local, state, & federal experts
- Achieve community recognition in the national Firewise USA® program
- Receive funding for best mitigation practices
- Partner with staff to reduce hazardous fuels with wood chipping & biochar production

Individual Home Risk Assessments

Receive a personalized & confidential report with resources to improve your home's wildfire resilience.

Community Assistance

Collaborate with neighbors to address shared wildfire risks. WCD can educate on wildfire risks and coordinate community action.

Fuels Reduction

WCD helps communities and landowners reduce wildfire fuels through projects like wood chipping and biochar production.

Firewise USA®

This national program provides a framework for communities to learn about and address their wildfire risk together.

Community Wildfire Resilience Program

Whatcom Conservation District's community wildfire resilience team provides free and personalized wildfire risk assessments for your home or community. Feel empowered to improve the safety of your home and neighborhood. Reach out to schedule your risk assessment with us today!
